OKR PROFESSIONAL MASTERCLASS CERTIFICATION

OKR PROFESSIONAL MASTERCLASS CURRICULUM

For all those who want to master the advanced concepts of OKRs (Objectives and Key Results) and lead their companies (or customers) to manage objectives in this agile framework.

This certification enables OKR Certification holders to facilitate all levels of the OKR life cycle in their companies (or customers), from the development of good OKRs to the deployment of tactical, strategic and operational objectives, and monitoring progress with good governance and discipline. Using this acquired knowledge, the certificate holder will make the OKR culture successful for all employees and managers in their organization (or customers).

Objectives and Key Results is considered the Agile methodology for managing objectives. The original concept came from Andy Grove, former CEO of Intel and spread to other organizations in Silicon Valley. It enabled the growth of these companies.

It is an approach that is simple to understand and a challenge to apply, to create alignment and engagement around measurable objectives toward company strategies and vision. The objective is to ensure that everyone moves in the same direction, with clear priorities, at a constant pace. OKRs have been a standard tool for startups, as it provides proportional predictability of strategic positioning and prioritization.

**Audience: Business Owner, CEOs, HR Professionals,
Performance Coaches and Trainers**

OKR PROFESSIONAL CERTIFICATION

After the workshops all participants have the opportunity to take an official online certification test and, if the training is successful completed, the participants receive with an OKR certificate.

Become a certified OKR PROFESSIONAL and help organizations to work with OKRs towards executing your strategies effectively and getting closer to their vision.
